Want to incorporate the latest science in health disparities into your own research?

The National Institute on Minority Health and Health Disparities (NIMHD) will host the Health Disparities Research Institute from August 15, 2016, to August 19, 2016. The Institute aims to foster individual research projects of promising scientists and motivated research scholars with the overall goal to stimulate innovative research in the minority health and health disparities sciences.

NCI-supported Graduate Student Recruiting Program

June 22 to June 24, 2016 in Bethesda, Maryland.

The purpose of this event is to recruit outstanding senior graduate students to postdoctoral positions at the NCI. Read more here!

CDRN Meet Ups

Attending an upcoming meeting relating to cancer research or health disparities? Maybe other CDRN researchers are attending, too! Email CDRN Coordinator with the attending and CDRN will work to coordinate a Meet Up with other attendees.

A Time for Women and Girls to Discover Their Greatness

New Resources

Webinar: The National Research Mentoring Network is a fabulous resource for both senior and junior investigators. Learn more on our website under the Resources and Tools section.

Webinar: Promoting Yourself, Your Research and the New NIH Biosketch. Click here to learn more.

Share Your Success!

Members of the CDRN network are doing amazing things and we want to make sure everyone knows about it! Sharing each other's successes can promote networking, facilitate exchanges of information between members and institutions, increase the potential for collaboration and encourage our senior PIs to contribute to the career development of our junior investigators.

Download the form here and send it to Carrie Norbeck, your regional coordinator.

Thank you for responding and helping to grow and celebrate the amazing work we are doing in our region.

Greetings CDRN Colleagues,

Are you attending AACR? If so, please let Carrie know as we are setting up CDRN Meet Ups to allow for networking and collaboration.

Feasibility Studies to Build Collaborative Partnerships in Cancer Research (P20) -> http://grants.nih.gov/grants/guide/pa-files/PAR-16-084.html - National Cancer Institute

Through this Funding Opportunity Announcement (FOA), the National Cancer Institute (NCI) invites P20 planning grant applications for developing collaborative partnership between institutions serving underserved health disparity populations and underrepresented students (ISUPS) and NCI-designated Cancer Centers (or Cancer Centers with highly integrated cancer research programs). This FOA is designed to facilitate the planning and execution of focused collaborations in cancer-related research, research experience, and research education. A major goal of the NCI P20 partnership programs is to provide support for investigators at ISUPS and Cancer Centers to conduct cancer research pilot projects and cancer research education program. The purpose of the pilot projects and education program is to allow awardees to obtain preliminary data that will lead to competitive grant applications for funding by the NIH/NCI and/or other Federal/Non-Federal agencies.
