

Greetings CDNR Colleagues,

CDNR Collaboration Corner

Will you be attending the upcoming AACR Health Disparities conference in Ft. Lauderdale, FL? If so, please let us know! Stay tuned for further details on the CDNR Meet Up and other GMAP opportunities.

Check out this recent article: **Racial/Ethnic Disparities in Genomic Sequencing** recently published in JAMA. The corresponding author is CDNR member, Joseph R. Osborne, MD, PhD, of Memorial Sloan Kettering Cancer Center in New York.

Below are select job and funding/training opportunities, resources/tools, upcoming events, and news that may interest you. Please share with your regional partners, researchers, NON CHEs, and CURE scholars as appropriate.

**Key Points**  
Question: What is the racial distribution among samples sequenced within The Cancer Genome Atlas and the deficit of samples needed to detect moderately common mutational frequencies in racial minorities?

Highlights:

- Job Opportunities:
• ASSOCIATE DIRECTOR POSITION IN THE IMMIGRANT HEALTH AND CANCER DISPARITIES SERVICE (see description) - Memorial Sloan Kettering Cancer Center, New York

Findings: A review of individual patient data from 1729 samples showed that only 52% were black, 3% were Asian, and 3% were Hispanic. For no racial minorities could we detect a mutational frequency of 5% in any cancer type analyzed.

Meaning: There are insufficient samples from racial minorities to detect moderately common genomic alterations in this population, which may be inadvertently widening the already pervasive gap in healthcare disparities.

- NICHD Job Announcement, GS-15 Medical Officer, Clinical Research
The National Child Health and Human Development (NICHD) Division of Extramural Research (DER) is recruiting for a Medical Officer (Research), with responsibility for serving as the NICHD clinical research point of contact for providing clinical, ethical, policy and regulatory advice and guidance on the extramural clinical research portfolio; for managing extramural agreements with other organizations; and for serving as the NICHD AIDS Research Coordinator responsible for organizing NICHD's extramural HIV/AIDS research activities.
Application Open: August 3rd – August 12th, 2016

CDNR Collaboration Corner

Do you have a resource you are looking to disseminate?

Are you looking for collaborators for a project or study?

Then share your work in the CDNR Collaboration Corner!

The Collaboration Corner will be located on our website (www.cdnr.org) and highlighted here in our E-blasts where investigators will be able to share resources, projects, and ideas, as well as describe the kinds of collaborators they are looking for, if applicable.

Please submit your resource to Carrie. Thanks!

- Updated Announcements (See below)
Updated e-Newsletters! (See below)

New Webinar: The NCI Diversity Supplement – Is It Right for You as a PI or Trainee?

Length: 1.5 hours (content and Q&A)

Speakers: What is the Diversity Supplement? -- Alison Lin, PhD Program Officer, Diversity Training Branch NIH/NCI CRCHD; Leveraging the Diversity Supplement to Build Careers in Science -- Carmen Guerra, M.D., M.S.C.E University of Pennsylvania; Shawna Hudson, PhD Rutgers University.

This webinar was held on August 2, 2016. It has been archived and will be available on the CDNR website shortly. Please check back soon!

Your CDNR Coordinating Office, Linda Fleisher, PhD, MPH CDNR Lead, Carrie Norbeck, MPH, CHES CDNR Regional Coordinator, Nestor Esnaola, MD CDNR Project Director

Have something to share in an upcoming CDNR e-blast?

Submit your upcoming webinar, training, conference or other resource to Carrie, and we'll include it in the next e-blast!

Below are select job and funding/training opportunities, resources/tools, upcoming events, and news that may interest you. Please share with your colleagues!

New Funding Opportunities:

- New: Precision Medicine Initiative Funding Opportunity
Application Deadline: August 29, 2016
New: Apply Now for the 2016 Training Institute for Dissemination and Implementation Research in Health
Application Deadline: August 26, 2016
New SBR Contract Solicitation – NIH/NCI 355: Cell and Animal Based to Advance Cancer Health Disparities Research
The primary goal of this topic is to develop new commercially available models relevant to diverse racial/ethnic populations including American Indians, Alaska Natives, Asians, African Americans, Pacific Islanders, and Hispanic/Latinos. Solicited models include patient-derived cell lines, patient-derived xenograft (PDX) and human tissue model culture systems established from racially/ethnically diverse patient populations. These models may be used to enhance research capabilities of basic scientists and/or provide novel tools to pharmaceutical companies for preclinical oncology studies. Establishing these novel models may influence CHD research in multiple ways including: 1) benefiting investigators in this largely underexplored area of research, 2) improving the quality and acceptance of CHD research data, and 3) improving validation and commercialization of cancer therapeutics relevant to diverse patient populations. Lastly, achieving these goals will contribute to the long-term, overarching goal of reducing CHDs. For More information On The SBR Contract Solicitation, Please Visit:
https://deliver.cancer.gov/funding/contracts/currentcontracts
Deadline for Submission: October 21, 2016
Apply Now for the Health Center Program's Service Area Competition (SAC)
National Office for Minority Health and Health Disparities (NIMHD) and National Cancer Institute (NCI) Funding Opportunities

New: Helping Cancer Survivors to End Tobacco Use and Improve Health Outcomes
Monday, August 29, 2016, 2:00pm – 3:00pm EDT
New: The Chemistry of Microbiomes – A Four Part Seminar Series (See Attached)
To register, click here.
New: 2016 NIH Regional Seminar on Program Funding and Grants Administration
This 2016 NIH Regional Seminar on Program Funding and Grants Administration is a 2-day event on Thursday & Friday, October 27-28 in Chicago, Illinois. Multiple sessions are offered across 3 tracks for administrators, new investigators, and all interests.
General registration ends September 1.
New: Public Health Fellowship in Government
Candidates must have strong public health credentials and be able to spend one year in Washington, D.C. The fellow will have the option of working in the House or Senate on legislative and policy issues such as creating healthy communities, improving health equity, addressing environmental health concerns, population health or the social determinants of health. Candidates must be an APHA member and have a graduate degree in public health or other related discipline.
Application Deadline: August 15, 2016
American Public Health Association

- New: PSA Test is Best at Predicting Lethal Prostate Cancer Webcast
The PHEN webcast is broadcast from the Dana-Farber Cancer Institute as part of PHEN's monthly meetings. Webcast viewers can submit questions via email to Prostate Health Education Network (PHEN) Rapcancer@prostatehealth.org or on social media (Facebook: ProstateHealthEducationNetwork or Twitter: @RapCancer)
August 10, 2016 6:00 pm EDT
New: National Summit on Advanced Illness Care
Among the speakers, Lucy Kalanithi, MD, FACP, Clinical Assistant Professor at the Stanford University School of Medicine, will be speaking at the third National Summit: Building Bridges to Success, taking place in Washington, DC, September 20-21, 2016. To see the full summit agenda, please visit www.clacs summit.org/agenda. To register, click here.

Cancer Health Disparities

New SBR Contract Solicitation – NIH/NCI 355: Cell and Animal Based Models to Advance Cancer Health Disparities Research
The primary goal of this topic is to develop new, commercially available models relevant to diverse racial/ethnic populations including American Indians, Alaska Natives, Asians, African Americans, Pacific Islanders, and Hispanic/Latinos. Solicited models include patient-derived cell lines, patient-derived xenograft (PDX) mouse models, and 3D human tissue model culture systems established from racially/ethnically diverse patient populations. These models may be used to enhance research capabilities of basic scientists and/or provide novel tools to pharmaceutical companies for preclinical oncology studies. Establishing these novel models may influence CHD research in multiple ways including: 1) benefiting investigators in this largely underexplored area of research, 2) improving the quality and acceptance of CHD research data, and 3) improving validation and commercialization of cancer therapeutics relevant to diverse patient populations. Lastly, achieving these goals will contribute to the long-term, overarching goal of reducing CHDs.

Budget (total costs, per award):
Phase I: \$300,000 for up to 9 months;
Phase II: \$2,000,000 for up to 2 years

For More Information On The Deliverables Of This Contract Solicitation, Please Visit:
https://deliver.cancer.gov/funding/contracts/currentcontracts
Deadline for Solicitation: October 21, 2016

- Cancer Research Education Grants Program to Promote Diversity - Courses for Skills Development (R25) (PAR-16-139)
Cancer Research Education Grants Program to Promote Diversity - Research Experiences (REX) (PAR-16-138)

- Feasibility Studies to Build Collaborative Partnerships in Cancer Research (P20)
National Cancer Institute

Through this Funding Opportunity Announcement (FOA), the National Cancer Institute (NCI) invites P20 planning grant applications for developing collaborative partnership between institutions serving underserved health disparity populations and underrepresented students (IUPS) and NCI-designated Cancer Centers (or Cancer Centers with highly integrated cancer research programs). This FOA is designed to facilitate the planning and execution of focused collaborations in cancer-related research, research experience, and research education. A major goal of the NCI P20 partnership programs is to provide support for investigators at IUPS and Cancer Centers to conduct cancer research pilot projects and cancer research education programs. The purpose of the pilot projects and education programs is to allow awardees to obtain preliminary data that will lead to the competitive grant applications for funding by the NIH/NCI aNNCind/or other Federal/Non-Federal agencies.

- Advancing Mechanistic Probiotic/Prebiotic and Human Microbiome Research (R01) (PA-15-135)

o NOT-CA-15-025: Notice to Emphasize the Requirement for Certification Letter to Verify Eligibility of the Applicant for PAR-15-053 (Exploratory Grant Award to Promote Workforce Diversity in Basic Cancer Research (R21))
o NOT-CA-15-024: Notice to Emphasize the Requirement for Certification Letter to Verify Eligibility of the Applicant for PAR-15-060, PAR-15-062, PAR-15-063, PAR-15-064

Other Opportunities:

- Call for Nominations: 2017 Lurie Prize in Biomedical Sciences
The FNHI is calling for nominations to the 2017 Lurie Prize in Biomedical Sciences. Now entering its fifth year, this prestigious medal and \$100,000 honorarium are presented by the FNHI to an outstanding, young biomedical investigator.
Nomination Criteria:
Nomination by a member of an accredited educational and/or scientific institution (No self-nominations).
Candidates must be 52 or younger on January 1, 2017.
Candidates may be nominated for achievements at any point in the research spectrum, from basic research to clinical trials.
Deadline: September 14, 2016 at 1:00 p.m. EDT
Apply: FNHI.org/lurieprize
The Open Science Prize (See attachment)

Welcome Trust/National Institutes of Health Phase II Application Deadline: December 1, 2016

- Informatics Tools and Methods to Enhance U.S. Cancer Surveillance and Research FOA (UG3/UH3)
National Cancer Institute

Upcoming Webinars/Trainings:

August 24, 2016 2:00 pm EDT
New: Webinar to Address Six New Funding Opportunities in Behavioral Research
This webinar will provide information about new priorities in behavioral research from NCI in areas such as cognition, integrated data analysis, and cancer communication in new media. Associate Director of the NCI Behavioral Research Program, Dr. William Klein, will provide an overview of these exciting new priorities:
o Leveraging Cognitive Neuroscience Research to Improve Assessment of Cancer Treatment Related Cognitive Impairment (PAR-16-212 [R01] and PAR-16-213 [R21])
o Predicting Behavioral Responses to Population-Level Cancer Control Strategies (PAR-16-257 [R21])
o Improving Smoking Cessation in Socioeconomically Disadvantaged Populations via Scalable Interventions (PAR-16-201 [R21] and PAR-16-202 [R01])
o Innovative Approaches to Studying Cancer Communication in the New Media Environment (PAR-16-248 [R21] and PAR-16-249 [R01])
o Cancer-related Behavioral Research through Integrating Existing Data (PAR-16-255 [R21] and PAR-16-256 [R01])
o Stimulating Innovations in Behavioral Intervention Research for Cancer Prevention and Control (PAR-16-278 [R21])

Friday August, 12, 2016 1:30 pm – 3:00 pm EDT

- New: CDC Fellowship in National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention
A fellowship is available in the Office of Planning & Policy Coordination within the Office of the Director in the National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention. This fellowship program is based in Atlanta, Georgia, and administered through a contract with the US Department of Energy to manage the Oak Ridge Institute for Science and Education. Applicants must be pursuing a master's or doctoral degree or received one of these degrees within the past 60 months. For more information, contact Amanda McWhorter at amcwhorter@cdc.gov.
Application Deadline: Friday, August 12, 2016 5:00 pm EDT
